**Attachments:** Bridgeton Landfill Response to EPA Questions after Brush Fire\_Redacted.pdf

After reviewing the AR and upon consultation with the Site attorney, it looks like I need to request a couple of changes to the West Lake Surface Fire Mitigation Removal AR.

Please remove: 40467874, 40273145, 40273146, 40273150

Also, I need to add two documents.

Please Add: 40467484 – Letter Transmitting the Health Hazard Evaluation (HHE)

The other document is not currently in the system. It is an email chain where the site attorney request information for the Site owners and their responses. I have attached it but I understand that I will need to submit a site filing form. I'll have it waiting for you at your desk. We need to get AR out very soon. I would really like to see it out in the next day or two. I realize you have all been waiting for me to get in and approve it. I apologize for that. Let me know if there is anything I can do to help speed this process along.
